Good Morning Julianne,

Yes the meeting is canceled, we are still trying to get everyone's workable date and times for the next call. I will get back with you soon with the best time for us.

Kevin H. Elder, Chief  
 ODA-Division of Livestock Environmental Permitting

**Subject:** RE: Time to Apply question

Hi Kevin,  
 Confirming that the call tomorrow, November 1, at 1:30 is postponed until the week of November 13.  
 I will sent out a list of questions and a conference number once we confirm a date and time.

*julianne*

**Subject:** RE: Time to Apply question

At this time I do not have any questions for the Nov 1 call. I think it would be more productive to wait until the week of Nov 13 for another call. Would you be available on either November 15, anytime 10am-3pm (eastern time), or November 16, anytime 10am-2pm(eastern time)?

I do have one question you may be able to help me with, page 4 of the MOA between ODA and USEPA, first paragraph in section II.C., last sentence of this paragraph, states "ODA is responsible for the enforcement program for unauthorized discharges of process wastewater, . . . by taking timely and appropriate actions in accordance with the CWA, . . . , and the

NDPES enforcement management system (EMS) developed by ODA for ODA's use." Would you be able to send me a electronic copy of the EMS that ODA developed? I did not see a copy included in the 2015 submittal and I looked on ODA's website but was not able to find such a document on the website. Thanks.

*Julianne*

Good afternoon Julianne,

I was wondering, I had a November 1<sup>st</sup>, 1:30 till 2:30 Conference call on my calendar. Are we still going to have that? If so, do you have any questions or agenda items?

Thanks!

**Subject:** Time to Apply question

Hi Kevin –

During our call this past Monday, you asked what the federal requirements are regarding time to apply for storm water permits. The time to apply requirements can be found at 40 CFR 121.21(c). For a CAFO proposing a new discharge of storm water associated with industrial activity, a permit application shall be submitted 180 days prior to commencement of the industrial activity which may result in the discharge of storm water. For storm water discharges associated with construction activities [specifically those described under 40 CFR 122.26(b)(14)(x) or (b)(15)(i), which will likely be the types of construction activities at AFOs] a permit application shall be submitted at least 90 days before the date on which construction is to commence.

Let me know if you have any questions.

*Julianne*
